INTRODUCTION

This guide provides information about the NCEA subjects available at Waiuku College. It is hoped that this information will help students, with the support of their parents/caregivers, to decide which subjects to take next year.

Choosing the right NCEA subjects is very important as it can have a major influence on a student's educational success. Students have a lot of subjects to choose from. It is important that they think carefully about where they want to go when they leave school before they decide which courses to take. If a student has no idea what they want to do, they should choose a broad range of subjects. Remember, it becomes more difficult to change direction as a student progresses through the senior school, so **think carefully, consult widely and choose wisely.**

Selecting Subjects

Take a close look at the Senior Subject Overview on the previous page. The overview shows all the subjects available at Waiuku College. Pay particular attention to which subjects lead on from Level 1 to Level 2 and Level 3.

Note those subjects that stop at a particular level, and plan how you will fill your options if you go on.

Students should follow a broad-based, general course of study for as long as possible. Early specialisation is not recommended.

Entry to some careers and tertiary courses can be made easier by selecting appropriate NCEA courses. The Careers Advisor can be consulted for information on these requirements.

If you want to go to university, or would like to have the option of going, make sure you choose four or five subjects that lead on to University Entrance Approved Subjects (UEAS).

General criteria you should use in your choices are:

- Your interests
- Your abilities
- Any career intentions you have
- Allow for flexibility in case of a change in your career plans
- Any subjects needed for higher level or tertiary studies

To make good decisions, you need the right information. Check that you have:

- Discussed your subject choices with your family, teachers, Whaanau Leader and the Careers Advisor
- Used the Quest Database at www.careers.govt.nz

Important Dates

- Monday 14th July – Senior Course Information booklets published
- Wednesday 23rd & Thursday 24th July – Whaanau Conferences
- Friday 1st August – Deadline for all subject choices to be entered via KAMAR portal

The school reserves the right to cancel or change courses.

HOW TO ENTER YOUR COURSE SELECTIONS ON KAMAR

1. Log in to the [KAMAR Portal](#)
2. Click on the **Course Selection** button

3. To view information about a subject, click on the subject's name.
4. Select your six subjects by clicking on one of the grey boxes in the row next to the subject's name. **Important:** you can only tick one box in columns 1 to 6.
5. Select two **Alternate** subjects that you would be happy to do if you are not able to get your first choice of subjects. Select your alternate subjects by clicking in the Alternate column on the right.
6. When you have selected your subjects, click on **Preview & Save** at the bottom of the screen. If you are happy with your choice, click on **Confirm Selection**.

The screenshot shows the 'Subject Confirmation' dialog box overlaid on the main selection table. The dialog box lists the selected subjects: Level 2 English Film Studies - L2FLM, Level 2 Visual Art - L2ARTV, Level 2 Chemistry - L2CHE, Level 2 Business Studies - L2BUS, Level 2 Algebra and Statistics - L2MAAS, Level 2 Design and Visual Communication - L2DVC, Alternate: Level 2 General Mathematics - L2MATG, and Alternate: Level 2 Digital Technology - L2DTE. It includes 'Confirm Selection' and 'Close' buttons.

The main selection table below shows the following structure:

At the bottom of the table, there is a 'Preview & Save' button highlighted with a red box.

What If I Change My Mind?

If you change your mind before the deadline for subject selections, you can log back in and change your selection by unticking the subjects you don't want and ticking the ones you do. Click on **Preview Selection** at the bottom of the screen and, if you're happy with your new list of subjects, click on **Confirm Selection**.

SENIOR COURSE GUIDELINES 2026

SENIOR QUALIFICATIONS

NCEA (National Certificate of Educational Achievement).

Each subject is divided into Standards. Each standard is worth a set number of credits. If students achieve a standard (in other words, they pass it) they are awarded the corresponding number of credits. In order to achieve NCEA Level 1, 2 or 3 students have to achieve 60 credits at the appropriate level, or above. They must also achieve NCEA Literacy and Numeracy.

NCEA Literacy and Numeracy: Starting in Year 10, students have two opportunities each year to sit the new Literacy and Numeracy exams. During the current transition phase, students can also gain Literacy and Numeracy by achieving certain Achievement Standards. However, Achievement Standard credits used towards Literacy and Numeracy cannot be counted towards the 60 required for NCEA certification.

NCEA Level 1: Students must achieve 60 credits at Level 1 or above. They must also meet the Literacy and Numeracy requirements.

NCEA Level 2: Students must achieve 60 credits at Level 2 or above. They must also meet the Literacy and Numeracy requirements.

NCEA Level 3: Students must achieve 60 credits at Level 3 or above. They must also meet the Literacy and Numeracy requirements.

Scholarship: These are optional exams run by NZQA, targeted at the top academic students in the country. Candidates are normally in Year 13 but students in Year 12 may sit them. Successful students receive financial awards ranging from one-off payments of \$500 up to \$10,000 per year for three years towards the cost of tertiary study. Scholarship exams do not count towards NCEA Level 3, nor do they lead to a qualification.

University Entrance

University Entrance, or UE, is the minimum qualification required by school leavers to study at a New Zealand university. To gain University Entrance students must:

- Achieve NCEA Level 3 – see above.
- Achieve 14 Level 3 credits in each of three University Entrance Approved Subjects (UEAS), e.g. 14 credits in English + 14 credits in Geography + 14 credits in Chemistry.
- Achieve UE Literacy by gaining 5 reading and 5 writing credits at Level 2 or above. UE Literacy credits are earned by gaining specific Achievement Standards at Level 2 or 3 across a range of subjects. UE Literacy is not the same NCEA Literacy.
- Achieve NCEA Numeracy – see above.

Many university courses have additional requirements in addition to UE. Students should research the exact requirements of any courses they are interested in applying for. Auckland University prefers students to have a minimum of 17 Level 2 or 3 English credits, in addition to the minimum UE Literacy requirements.

For more information about NCEA go to the [New Zealand Qualifications Authority](https://www.nzqa.govt.nz/) (NZQA) website and click on the Students and Family tab.

COURSE FEES

Please refer to individual subject pages for information about course related fees. By applying for a particular course, you are indicating your agreement to pay the related fees.

SENIOR COURSE STRUCTURE

The Senior Timetable

The senior timetable is made up of six lines. Each line has four periods giving a total of 24 periods a week. Period 5 on Wednesdays is a study period. Students in Years 11 and 12 take six subjects. Students in Yr13 normally take five subjects with the sixth line set aside for private study.

Year 11 students MUST take English, Maths or Numeracy and a Science subject (or Primary Industries), plus three options.

Year 12 students MUST take English or Te Reo Maaori and five options. They should retain a broad choice of subjects.

Year 13 Students must take a total of 5 options which make up a coherent overall course related to their proposed future pathway. Students may take a sixth subject at the discretion of their Whaanau Leader.

If students want the option of going to university, they should take four or five University Entrance Approved Subjects. They are also recommended to choose at least one subject that has a strong literacy element, e.g. English or History.

GETTING OPTIONS ADVICE

Students can get advice from their Whaanau Teacher, subject teachers, and Whaanau Leader. Heads of Department are also happy to assist in any way they can. Students can also speak with the school's Careers Advisor, Mrs Woods.

SPECIAL ASSESSMENT CONDITIONS

Some students are entitled to Special Assessment Conditions (SAC) such as a reader/writer or extra time when they are completing internal assessments and exams. Students can qualify for SAC for a variety of reasons, such as dyslexia, dyspraxia and a visual or hearing impairment. If students have had additional support in the junior school, they may qualify for SAC when doing NCEA assessments and exams. Contact Ms Grey, the school's Special Educational Needs Co-ordinator (SENCO), for more information.

WORK EXPERIENCE & TERTIARY STUDY OPTIONS FOR STUDENTS IN YEAR 12 &13

When students reach Year 12 new opportunities are presented that enable them to plan their pathway through the senior school and on to tertiary study or employment. These include the Gateway Programme and STAR Courses

GATEWAY PROGRAMME

Gateway is a programme for Year 12 and 13 students designed to support transition into the workforce or tertiary study. It provides an opportunity to experience options which students may want to explore before embarking on a career or further study.

Key Points:

- Students have to apply and go through an interview and selection process in order to be accepted onto the programme.
- Student must gain at least 20 NCEA credits towards employability and work readiness skills or workplace learning related to the student's career goals, at the co-ordinator's discretion.
- Students complete a work placement with an employer one day a week for approximately ten weeks, while they continue to study at school.
- Students develop a relationship with local businesses as well as links with Industry Training Organisations.

Students often benefit from the Gateway Programme by becoming more motivated and self-confident. Students have reported that workplace learning is easier because it is 'real'.

In recent years we have had Gateway placements in businesses including animal care, building, engineering, healthcare, hairdressing, equine, agriculture, sport and recreation, early childhood education, automotive, horticulture, construction, tourism, midwifery, plumbing and electrical.

In 2026 we will have placements available for 40 students in Year 12 and 13. Students will need to fill out a **Gateway Application Pack**, complete relevant sections on the school's career tool and successfully complete an interview.

Please contact the Gateway Coordinator in the Careers Centre for more information. Applications open in Term 4 and close at the end of Week 4 Term 1, 2026. Interviews will take place in Week 5 Term 1.

STAR COURSES 2026

The Secondary Tertiary Alignment Resource (STAR) helps students in Years 12 and 13 explore career pathways and make informed decisions about future work and study options.

COURSE FEES ARE PAID BY THE SCHOOL. However, if students fail to attend without just reason they will be billed for the full amount for the course.

- Students complete Unit Standard assessments that count towards NCEA Level 2 or above.
- Travel may be arranged by the school, but students should be willing to make their own way to course venues. Students may also have to pay part of the travel costs.
- Some courses run one day a week for a number of weeks during term time. Others run for several days during the holidays.
- By registering for a course, students are committing to attending every day the course runs.

A variety of courses are offered during the year. Here is a list of courses offered in previous years:

- Introduction to Acting
- Baking and Pastry for Cafes
- A Career in Nursing
- Flight Attending
- Tourism
- Taster Day – Health, Interior Design, Performing Arts, Landscaping, Engineering, Trades, Business
- First Aid
- Communication – Interview Techniques
- Forklift Truck Licence
- Auto Cad
- Creative Media
- Animal Technology
- Hair Dressing
- Make-up, Beauty
- Radio, Broadcasting

2026 Courses will be advertised in the Student Notices and assemblies.

VOCATIONAL PATHWAYS

BRIDGING THE GAP FROM LEARNING TO EARNING

As well to counting towards NCEA, many Level 2 and 3 credits also count towards one or more of the Vocational Pathways. Vocational Pathways awards highlight a student's learning, achievement and skills in relation to a particular group of industries or services. There are six Vocational Pathways:

- Creative Industries
- Primary Industries
- Service Industries
- Social and Community Services
- Manufacturing and Technology
- Construction and Infrastructure

HOW TO USE THE VOCATIONAL PATHWAYS INFORMATION

I Don't Know What I want to do When I Leave School

If you don't know what you want to do when you leave school you can use the Vocational Pathways information to get an idea of which industries or sectors the courses you choose may be useful for.

I Know What I want to do When I Leave School

If you know what you want to do when you leave school you can use the Vocational Pathways information to help you choose courses that will help you follow your desired career path.

VOCATIONAL PATHWAYS AWARDS

If you pass NCEA Level 2 and you have earned 60 Level 2 credits from the recommended list of standards for a particular pathway, including 20 from the list of sector-related standards, you will be awarded that Vocational Pathway on your Record of Achievement. For example you could receive the Primary Industries Vocational Pathway award or the Creative Industries Vocational Pathway award. This will tell employers and trainers that you already have a good foundation to start training in their particular industry.

LEVEL 1 STANDARDS AND VOCATIONAL PATHWAYS

Although Level 1 credits do not count towards any of the Vocational Pathways Awards, there is a list of recommended standards. These standards are considered to develop the necessary knowledge and skills to get you started on your way towards achieving a particular Level 2 Vocational Pathway award.

Subject: **ALGEBRA and STATISTICS – L2MAAS**

Level: **NCEA LEVEL 2**

Number of Lessons per Week: **4**

Total Credits Available: **19**

Can I Gain a Course Endorsement in this Subject: **Yes**

Recommended Prior Learning:

Successful completion of Level 1 Mathematics (15 Credits)

What Will You be Studying?

- Algebra – explore equations, inequalities, quadratic equations, exponentials, and logarithms.
- Graphical Modelling – investigate how non-linear graphs can be used to model real world scenarios.
- Trigonometry – investigate how to use non-right-angled Trigonometry to solve real world problems.
- Probability – explore tree diagrams, two-way tables, and normal distributions to solve problems
- Informal Inference – learn how to make statistical inferences using samples about the population.

How Much Does the Course Cost?

- Scientific or Graphics (preferred) calculator to be purchased with stationery – cost varies (**Compulsory for this course!**)

What Does This Subject Lead On To?

- NCEA Level 3 Statistics and/or Calculus

Subject: **FOREIGN LANGUAGES – L2LAN**

Level: **NCEA LEVEL 2**

Number of Lessons per Week: **4**

Total Credits Available: **Varies**

Can I Gain a Course Endorsement in this Subject: **Yes**

Recommended Prior Learning:

It is recommended that you have studied your chosen language(s) in Year 9 and Year 10 and/or you are a native speaker of that language.

Distance Learning:

All foreign language courses are offered via distance learning with outside providers. Students will be monitored and supported by a member of staff. However, they will not have access to a subject specialist in the normal way. Therefore, it's important that students opting to take a foreign language are highly motivated, independent learners with sound time management skills.

For more information, please contact Mr Ditchburn.

Subject: **NUMERACY – L2NUM**

EXCLUSION: Students can take either Mathematics or Numeracy but cannot take both.

Level: **NCEA LEVEL 1 and LEVEL 2**

Number of Lessons per Week: **4**

Total Credits Available: **11 Credits from Internals + 10 Credits from Numeracy CAA**

Can I Gain a Course Endorsement in this Subject: **Yes**

Recommended Prior Learning:

Attempted completion of Year 10 Maths including numeracy.

What Will You be Studying?

- Exploring Data – Discover how to collect, analyse, and interpret real-world data using graphs and statistics to make informed conclusions.
- Networks – Learn how to solve real-world problems using network diagrams, including shortest paths and efficient connections, in this practical and visual maths standard.
- Co-ordinate Geometry – Use coordinate geometry to solve problems involving points, lines, and shapes on graphs, developing skills in algebraic reasoning and spatial thinking.
- Sequences and Series – Explore patterns and relationships in numbers by working with arithmetic and geometric sequences to solve problems and make predictions.
- Numeracy – Build practical numeracy skills by solving everyday problems using graphs, measurements, patterns, and basic calculations in real-world contexts.

How Much Does the Course Cost?

- Scientific calculator to be purchased with stationery – cost varies (Compulsory for this course!)

What Does This Subject Lead Onto?

- NCEA Level 2 General Mathematics (with HOLA approval only)

Subject: **TUU RANGATIRA – L2TRNG**

Level: **NCEA LEVEL 2**

Number of Lessons per Week: **4**

Total Credits Available: **Variable**

Can I Gain a Course Endorsement in this Subject: **Yes**

Recommended Prior Learning:

It is recommended that you passed your Year 10 English, Mathematics, Science, Social Studies Courses.

What Will You be Studying?

This course is a specialist curriculum class which embraces the Maaori world view, integrating Literacy, Numeracy, Matauranga Maaori, Science and gives students the opportunity to investigate, research and create a project which is based on their passion.

If you could learn anything in school, what would you choose? Would you follow a passion or answer a question you have always wanted to know, learn a new skill, language, or sport? Develop a new business idea, design something epic or solve a complex global problem? Organise a social action to serve people in your community? You are about to get your own passion project. You get to choose the topic based on your own interest. You ask the questions, research the answer and create something to share. This is your chance to show your genius!

Students are required to complete tasks and present an organized portfolio with evidence of tasks and key competency development for internal verification. The focus is on being able to manage self, set goals, work with others and problem solving.

Students gain improved social confidence, motivation and self-esteem in setting learning goals and achieving them. This course targets key competencies necessary for the workforce, i.e. managing self, thinking, relating to others, using language symbols and texts, and participating and contributing.

Students on this course can achieve core subject assessments and/or unit standards through connecting with Matauranga Maaori passion projects. The selection of standards will be based on the naturally occurring evidence that falls out of the students' passion projects. A mixture of achievement and unit standards would be used.

How Much Does the Course Cost?

Nil.
