

## International Students – Traumatic Incident Response

6.9

### **Rationale**

Waiuku College needs to have best practice response procedures in place to ensure that it is well prepared to respond in the event of critical illness, injury or death of an International Student.

### **Requirements**

1. Response plan and procedures in place for death of international students.
2. Response plan and procedures in place for critical injury or illness of international students.
3. Plans are held by the Principal, International Director, International Dean and Homestay Coordinator.
4. Plans reflect best practice as advised through local and regional international directors and coordinators networks.
5. Production, distribution and review of the abovementioned plans and procedures are the responsibility of the International Coordinator.

### **Associated Procedures**

Plan for incident resulting in death of international students.

Plan for critical illness or injury of international students.

Adopted by Board of Trustees: August 2013
